

I am commenting on the proposal to replace FM radio stations with LPFM stations. I am against this proposal due to fact that K-LOVE would not be heard in my area anymore. K-LOVE is a major ministry in my life. I listen to it daily at home, in the car, and at school where my burdens can be overwhelming. Listening to K-LOVE helps me to take those burdens to God so that I can effectively do my job, which is to teach 6th grade Reading. I also give monthly to help support K-LOVE, since they are commercial free. This giving is part of my tithing which God has called me to do. I realize there are many other organizations I could give to instead of K-LOVE, but K-LOVE reaches so many people with just my small contribution. I am helping to reach the world with God's message of salvation.

K-LOVE reaches so many people's ears just in my community. I hear people talking about K-LOVE's message frequently and the impact it is having on their lives. I also get news updates daily from K-LOVE. These updates are positive, unlike what I usually hear on television. I hear of upcoming concerts that I could take friends to, and advice that I can share with others.

Many people rely on K-LOVE daily for the inspiration. Taking it off the air would leave many people without music to listen to. I choose to not fill my ears with negative, secular music. I choose positive for my life. I know many children who won't listen to anything but K-LOVE. Even it's only a few, it is worth it to keep K-LOVE on the air to teach these children right from wrong, positive from negative. Please reconsider your proposal and keep our airwaves positive!
